Proofreading Plus is a remote service (i.e. material will be delivered, read and marked up electronically). Errors of grammar, punctuation, spelling etc. will be corrected, and comments made on some of the larger issues – style, argument, structure etc. I will not ‘fix’ these larger issues for you, but will make helpful suggestions and point out where you might need to do more work. I will use ‘track changes’ so that you can see where I have made alterations, and accept or reject them.
